

Fortinet Rack Mount Tray

The Fortinet Rack Mount Tray is designed to allow you to rack mount Fortinet devices that are less than 1U wide. Supported devices are installed either directly onto the tray, or using the provided adapter bracket, and are held down with built-in magnets and, optionally, with the provided screws.

Costs: approx. CHF 200.- / tray

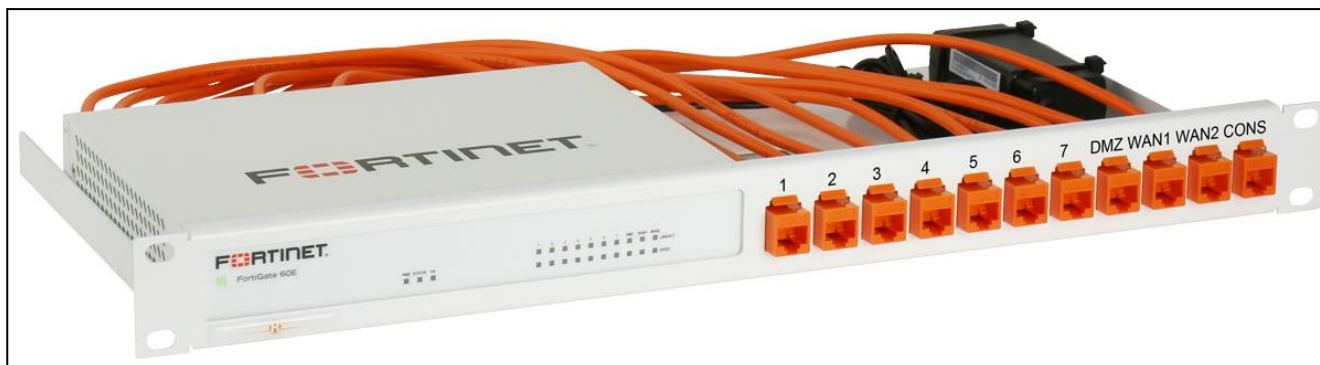

- ▶ Fits 2 devices on one tray
- ▶ [list of supported device](#)
- ▶ Typical FortiGate models supported:
(SP-RACKTRAY-02)
FortiGate 30E
FortiGate 5xE
FortiGate 6xE (-POE)
FortiGate 8xE (-POE)

3rd Party Rack Mount Kit (FortiRack)

The manufacturer RACKMOUNT.IT offers a variety of rackmount kits for different vendors. For Fortinet devices, you need to find the kit that's made for a specific model. The rack is tailored specifically for defined models to guarantee a perfect fit. In addition, the connections are brought to the front for easy access. The power supply is fixated to prevent an accidental loss of power.

Costs: approx. CHF 99.- / Kit

Example above: RM-FR-T10 for FortiGate 60E

- ▶ Mounts like a real 19" device with connections in the front
- ▶ [list of supported Fortinet models](#)
- ▶ Typical supported Fortinet products:
